

## SteelDoorDepot.com's Guide to Amarr Residential Garage Doors

Steel Door Depot is pleased to offer a range of doors manufactured by industry leader Amarr Garage Doors. Amarr's garage doors are designed and built to exacting standards to ensure durability, safety, and an attractive appearance.

### Amarr Doors are Built to Last

Garage doors protect your car and belongings from adverse weather conditions, and are an important part of home security. Steel garage doors are strong and don't dent or scratch easily, while wood doors offer a upscale look to your home.

Amarr garage doors are built with tough high-gauge steel, either as light single-layer doors or stronger double or triple layer doors. Doors with multiple-layer construction include insulation to regulate the temperature of your garage in extreme heat or cold.

Many of Amarr's steel garage doors are also available in models built to withstand high wind loads. If you live in a coastal region or other area susceptible to hurricanes and other extreme weather, your building codes may recommend or even require a wind load rated garage door. Contact us to discuss your particular door requirements.

### Amarr Doors: Engineered for Safety

Amarr doors feature their Safe Guard System, which features patented center and end hinges, exclusive safety bottom brackets and uniquely-designed pinch protection sections (which reduce the risk of hand and finger pinches).

### Garage Doors Affect the Look of Your Home

A garage has a major impact on the appearance or "curb appeal" of a home. If your home has a two-car garage, it can make up one third or more of what visitors see when they pass on the street.

Amarr's steel, wood and aluminum garage doors are designed to enhance the your curb appeal with designs that range from classic, carriage-house styles to more contemporary looks. Couple an optional electric opener with their durable finishes and Amarr doors improve your home's appearance with a minimum of maintenance.

Visit our Residential Door section to see our array of Amarr Garage Doors. Don't see a door model you're looking for? Just contact us at [sdd@steeldoortepot.com](mailto:sdd@steeldoortepot.com) as we can acquire virtually any model you may be interested in.
